Trustee Thomas made the motion to close nominations and vote to reappoint Kim Owens as Secretary/Treasurer with a second by Trustee Feldmann. Motion passed unanimously with roll call.

New signers on the bank account will need to be established. Trustee Bertels made the motion to authorize Steve Strohbeck, Steve Ruppert and Bob Kercher along with Kim Owens to checking accounts. The Treasurer, Chairman and Vice Chair will be authorized to sign for Time Deposits. Motion seconded by Trustee Jarden. Motion passed unanimously with roll call.

Manager reported on the current status of Seiler Rd Phase II. Fosterburg Water has 33% of the lines which need to be moved on right of way the other 67% is on easements. Sheppard, Morgan & Schwabb, Inc is the engineering firm for the County and they have some information they will share with Heneghan and Associates to help make the decision where to move our lines but the county has announced they will be revising the project again. We have \$15,000 in this phase already and has been ongoing since 1990.

Manager reported he spoke with Jim from Navionics Research Inc. this past weekend and he has been experiencing some medical issues. The fact that everyone in the area uses his equipment and have been without assistance during this time may influence him to work with someone to not lose the customers.

Manager reported on the Windy Hill project which was completed last year with a grant. A property owner near there would like to have water now but it would require going through or around a creek. He is to make contact with the few other neighbors to see if they would like to pursue it. Then he will get back with us.

Illinois Alluvial Regional Water Treatment Plant has secured the property and is waiting on the river to go down before testing the wells. With a good report they will be ready to move forward with the plans.

The Chairman declared the meeting adjourned at 8:30 p.m.
